

The 4th Asian Maritime Law Conference

Organised by the Maritime Law Association of Singapore (MLAS), the 4th Asian Maritime Law Conference (4AMLC) attracted over 80 participants from 11 countries. Themed Competition, Shipbuilding and Arbitration, the event was held at Amara Singapore on 19-20 May. For one and a half days, professionals from the international maritime community gathered to discuss various maritime issues. Networking opportunities were aplenty, both during breaks at the conference venue and at a cocktail reception on the 19th at Maxwell Chambers. That evening, participants mixed and mingled over drinks and finger food and were given the option to go on a tour, which gave them an insight into how the establishment makes an ideal venue for alternative dispute resolution (ADR) processes.

A big thank you to all participants for contributing to the event's success! For information on the next Asian Maritime Law Conference, please write to mail@mlas.org.sg
